

An Institute of Sheet Metal Engineering Event

Factory Visit & Lunch

to

**On Monday 20th March 2023 Meeting at 9-45am
JCB Visitor Centre Station Road Rocester ST14 5JA
ABOUT THIS EVENT**

An amazing opportunity to venture behind the scenes of JCB's world famous diggers; this unique tour includes historical information, little-known facts, exciting insights and gets you up close to the JCB manufacturing process.

Your visit will begin with welcome refreshments, and a short presentation in the JCB Theatre showing our corporate brand video on the global manufacturing facilities and products. You will then be invited by one of our Tour Guides to attend a personal tour of the "Story of JCB" exhibition with time to visit the JCB shop.

The tour will then take you to the assembly line of the world-famous Backhoe Loader machine; here you will see the process of how the machine is built from the delivery of the sheet steel, profiling, laser cutting, welding, paint shop, assembly and finally the finished product!

Lunch is included, you'll experience a unique dining experience in our VIP Hospitality Suite with seasonal dishes created by our Executive Head Chef, Alastair Rowe, using the organic produce sourced from our sister farm, 'Daylesford Organic'.

- **Smart Casual dress with suitable comfortable footwear is suggested. Please remember you will be in a working factory environment.**
